Track 14: Intro to Raw Hypnosis

Congratulations on making through the “regular hypnosis” section of the course and Welcome To Raw Hypnosis!

If you're new to hypnosis and you skipped the “Regular Hypnosis” module, naughty you! Go back and go through that section now so you have a solid understanding of regular hypnosis before you get into this Raw Hypnosis module.

So what is Raw Hypnosis and how is it different from regular hypnosis? Well, it's really completely different, because it goes way beyond just standard hypnosis.

Raw Hypnosis is a combination of hypnosis, psychology, seduction, communication & NLP.

The reason Raw Hypnosis is so powerful is it uses a combination of all of these techniques! Each one, including regular hypnosis, are all very powerful by themselves, however, when you combine them all together in the way that Raw Hypnosis does you get something that is much more powerful and useful than just hypnosis, or any of the other techniques are by themselves!

Some of the major differences between regular hypnosis and Raw Hypnosis are that with regular hypnosis it has to take place in a controlled environment with willing participants! That means that your subject has to know that you're going to hypnotize them, and they have to agree to it. For that reason, regular hypnosis most of the time happens in controlled environments like a hypnotherapist's office, a stage, the hypnotist's home, or another location that a person who is interested in being hypnotized might go...

Raw Hypnosis on the other hand can happen in just about ANY environment and it can be done WITHOUT your subject knowing about it!

This is where the real power of Raw Hypnosis comes into play.

This is also where some traditional hypnotists will attack the idea of Raw Hypnosis thinking it must be "bunk" because it's not possible to hypnotize someone without their knowledge or consent...

And they're right... IF we were talking about regular hypnosis... We're not, we're talking about Raw Hypnosis.

This is the point in the course where you really have to OPEN YOUR MIND and

realize that this is NOT just about regular hypnosis, it's going far beyond that into the fields of psychology, seduction, communication & NLP.

Even though we're calling this Raw Hypnosis, I guess it could also be called Raw Communication or Raw Psychology, etc., because really, it's just as much about those other skills as it is about hypnosis, that's where the real power in it comes from!

Not if you're getting a little scared about the whole idea of using Raw Hypnosis on someone without them knowing or agreeing to it, please realize that Raw Hypnosis is not intended to be used for any sort of evil purpose, it's simply about mastering the skills that you allow you improve your life and start getting the things you want out of your life.

Gaining control of someone through Raw Hypnosis is all about effortlessly thinking more than those you're dealing with. It's about making your subjects believe you're having a simple conversation about one thing, when really you're several steps ahead of them and you're effortlessly communicating with them without really having to think too much about what you're saying. In doing so, you lead them into the place you want them to be in and, in most cases, when you get there, they're not going to have any idea that it was really you that was leading them all along.
