# **Important Resources**

(These are resources that you should consider using to start, operate and maintain a successful Web site business)

- 1) FileZilla (The Free FTP Solution) This software will allow you to easily and quickly move files from your computer to your web host and vice versa. You can download this software at: http://filezilla-project.org/
- 2) WP Video Tube This software has a free trial and only costs money if you want to upgrade. The software allows you to have videos from youtube.com automatically added to your WordPress Web site. This is a great software package and I have found it very useful. More information on it at: http://www.wpvideotube.com
- 3) Alexa Web Search (http://www.alexa.com) This Web site will allow you to check the popularity of a Web site.
- 4) AddThis! (http://www.addthis.com) This is a great social bookmark and feed button builder.
- 5) Word Press Templates (http://wordpress.org/extend/themes/) Free design templates you can use for your Word Press Web site.
- 6) CafePress (http://cafepress.com) They take your designs and print them on t-shirts, apparel, gifts for the home, stationery, gear as well as many other things that get printed on and you get a percentage of the sales. The best part is you have no inventory because after they manufacture the item they ship it for you.
- 7) Revver Video Sharing Network (http://revver.com) You can earn money sharing your videos on their network.
- 8) Shopping Ads (http://shoppingads.com) Monetize your Web site with live merchant listings.

- 9) The W3C Markup Validation Service (http://validator.w3.org/) This Web site will let you know if your Web site has any errors.
